Etivity

Intelligent Workforce Solutions in the **Cloud**

Increase Performance

If you are currently hosting your own Etivity software, or are running in a multi-tenant environment, you may experience performance benefits when moving to a Etivity Cloud dedicated platform.

Version Control

Upgrade your Etivity WFM and move forward at your own pace. Our multi-tenant platforms benefit from regular upgrades that are deployed by us. In dedicated or co-hosted environments, you have total control over the release cycle enabling testing, integration and roll-out at a pace determined by you.

Managed Services

Our experienced infrastructure team monitor platforms around the clock - ensuring your hosted platforms are operating efficiently and effectively. We employ a suite of tools that ensure the platforms are maintained and kept current so that your teams can manage your business and not the technology.

Stay Current

With the latest updates and features deployed to your Etivity platform -we can make sure you move forward at a controlled pace - in line with your change management processes.

Reduce Cost

With a Etivity cloud solution we provide you with the latest platforms, access, security and resilience in a cost effective environment. We can help reduce the cost of maintaining your Etivity solution significantly.

Flexibility

Our Etivity Cloud solutions allow you to tailor a package to meet your exact requirements. Talk to us today to find out how we can help.

Intelligent workforce management
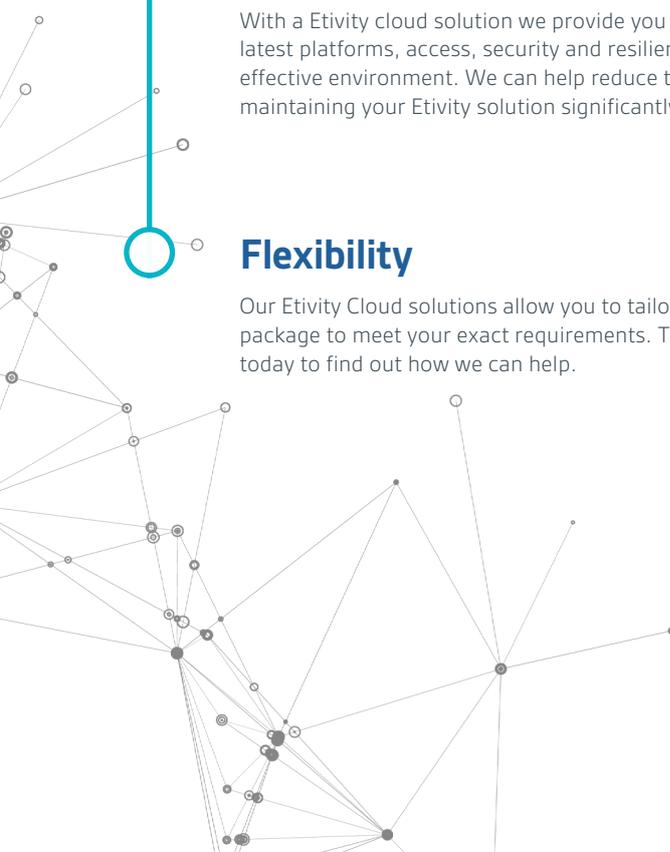

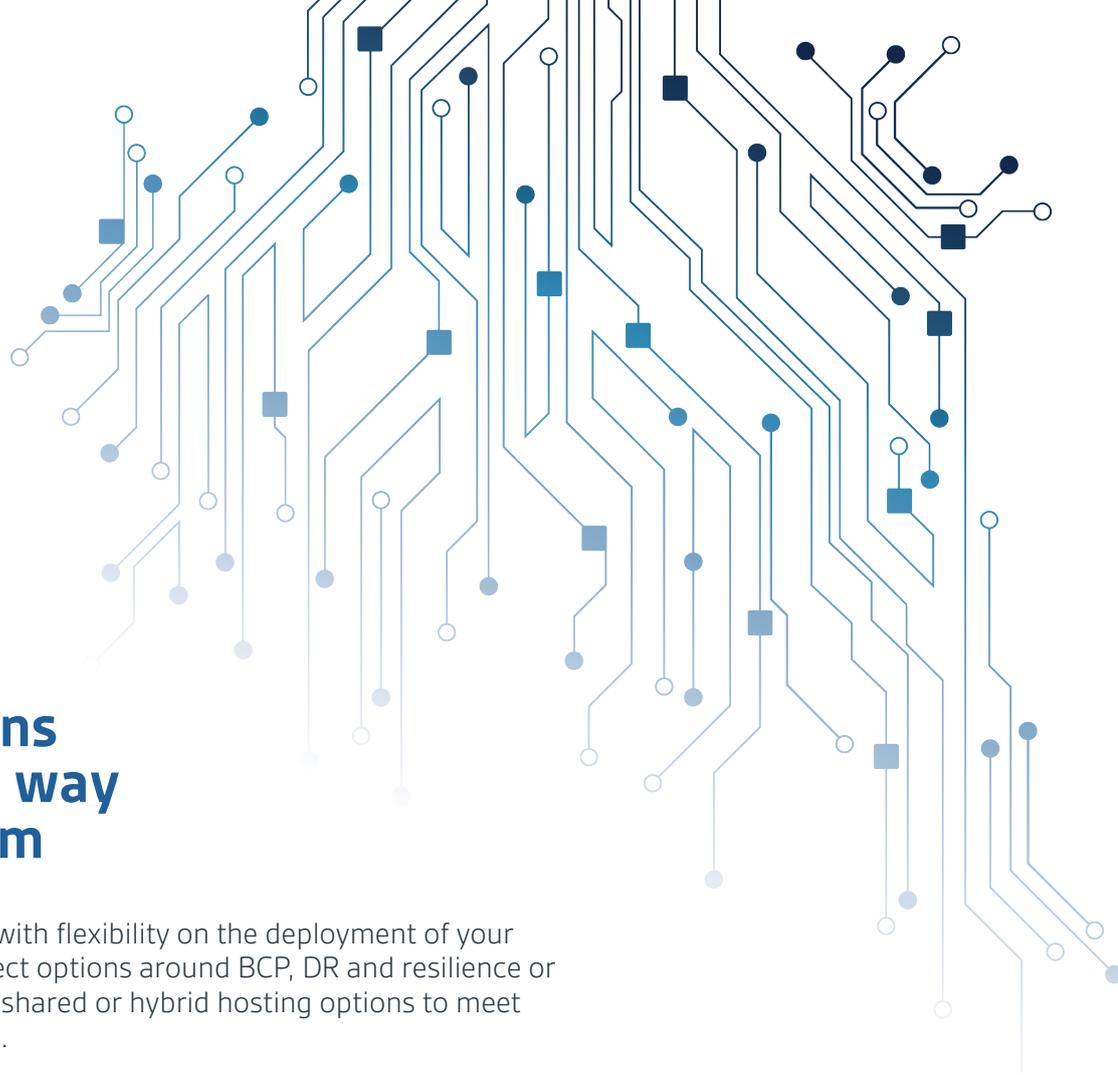

Cloud solutions delivered the way you need them

Etivity cloud provides you with flexibility on the deployment of your Etivity WFM solutions. Select options around BCP, DR and resilience or chose between dedicated, shared or hybrid hosting options to meet your specific requirements.

Cost Effective Cloud Solutions

Hosting Options
Depending on your business requirements, Etivity is able to accomodate your hosting requirements - we offer dedicated hosting, co-hosting and multi-tennant options to ensure your IT and security requirements are met.

Data Security
Etivity operates datacentres located in Australia under ISO 270001 and ISO 9001 accreditation. Our cloud solutions are backed up with industry recognised security proceedures and protocols ensuring security of your data at all times.

Cost Effective
Etivity cloud is cost effective too. When compared to solutions like AWS we can host your Etivity solutions at extremely competitive rates - you may be surprised what you can save.
